

AT&T Partner Exchange®

SalesReach Telecom for Carriers™ provides the only turn-key API driven Quoting and Commission processing app for AT&T Partner Exchange partners, who use Salesforce.com.

- Instant AT&T service availability determined at up to 10,000 locations at once
- Contracted costs returned, marked up and placed in Salesforce.com Opportunity Products, so quoting is a breeze.
- APEX Partners get 25% Discount off SalesReach Licenses
- AT&T Pays 50% of net first year cost

CSPQ - Configure, Source, Price, Quote

- **Configure** complex Quotes easily while determining service availability for up to 10,000 locations at once
- **Source** full products or component parts from a virtually unlimited number of underlying Suppliers
- **Price** the Sourced items with calculated markups
- **Quote** within Salesforce.com opportunity product line items using any document generation method you choose

COMMISSIONS

- API feed or file upload from billing data
- Applies all your compensation rules
- Calculates commissions due
- Splits them between all recipients
- Posts them to the opportunity & Salesforce Partner Community
- Eliminates manual sending of reports.

JOIN

- Directly connects Salesforce to your billing system
- All work is done in Salesforce & parsed to your billing system
- Billing system does the billing transactions
- Join eliminates swivel-chairing between apps
- You get one system to train on, work in and manage
- All data is always synchronized.

SALESFORCE ADMIN

- It's hard to get needed IT resources just as you need them.
- It's nearly impossible to get them on an "I need it now" project.
- Our salesforce.com certified admins & developers are included
- Get salesforce.com admin and development services as needed
- Workflows, reports, dashboards, Apex code, APIs designed and implemented, Lightning Process Builder processes
- No problem - all are included
